**EX-NAMES:**

A LADYBUG	2011-	A Ladybug Corp., Taiwan

**GENERAL VESSEL INFORMATION:**

In January 2011 the company (Ro Ro Line Pte Ltd./member of TMT Group) launched the first of 4 new sister Ro Ro vessels to establish its new service into Northern Europe. All vessels are equipped with a 320 tonne stern quarter ramp capacity, main deck height of 6.70m and many other High and Heavy decks with heights in excess of 4.00m.

These vessels represent possibly the largest PCTC (Pure Car/Truck Carrier) in service with an overall capacity of 7600 ceu's (cars).

MV **A LADYBUG** will be followed by B, C and D Ladybug in the near future.

All vessels will be able to accommodate the full range of Ro Ro cargo including Construction and Agricultural equipment, Road Building equipment, Commercial Trucks and Trailers, as well as cars and vans etc. In addition to this, the 320 tonne stern ramp will allow the heaviest of mobile cargo to be accepted. In addition to this all types of projects and static cargo will be carried using the lines own fleet of high capacity Mafi trailers
