GENERAL VESSEL INFORMATION:

2009: **Delphis NV has taken in charge the 1,440 teu A LA MARINE** from the Peenewerft. Delphis has been behind the purchase of this ship from German owner Rudolf Schepers earlier this year. The vessel belongs to **Peenewerft's improved '1400 Baltic' type**, which shares some similarities with the eleven units of the Hegemann Group's well-known 1400 type, but is has been adapted for the special requirements of the Baltic Sea feeder trade : the new series comes equipped with a high ice class (1A / E3) and a fully enclosed bridge. The A LA MARINE joins this week the Baltic feeder network of Team Lines (an affiliate of Delphis) and becomes the largest ship currently employed on this network.

2014: **Compagnie Maritime Belge (CMB) is to acquire the containership fleet owned by Antwerp-based Delphis NV**, comprising of 14 containerships ranging from 1,078 to 3,836 teu, totalling 37,000 teu. Seven ships are fully owned and seven partly owned through joint ventures. CMB will acquire both the owned vessels as well as the stakes owned by third parties in the joint venture fleet, with the deal valued at a total of \$2.2 M only, excluding debt. The transaction remains subject to the consent of the financing banks. CMB expects to be able to close the deal by early 2015.
