GENERAL VESSEL INFORMATION:

Korea Line has chartered out two VLCC newbuildings for five years each at rates that brokers say will not make a profit for the owner. The 317,000-dwt newbuildings BLUE GARNET and **BLUE AQUAMARINE**, being built by South Korea's Daewoo Shipbuilding & Marine Engineering, were chartered for five years each at escalating rates of \$27,000, \$28,000, \$30,000, \$32,000 and \$34,000, according to fixture lists distributed by brokers on Friday. By comparison, an Athens-based broker said newbuilding VLCCs of around 300,000 dwt need to make around \$38,000-\$42,000 per day to be profitable. (2011-06-27) (www.simic.net.cn)
