CAPE FULMAR	2007-	Hanse Bereederungs GmbH, Marshall Islands

**GENERAL VESSEL INFORMATION:**

German Peenewerft at Wolgast on the Baltic Sea handed over **CAPE FULMAR**. The new 1,440 TEU ship is operated by Columbia Ship Management and will be employed in Baltic feeder services for CMA CGM. It continues the recent trend towards larger capacity ships in this trade and replaces the 868 TEU Aurora a typical type-168 feeder of Sietas design. Cape Fulmar is 170.20 metres long and 25.10 metres wide. Powered by an MAN B&W 7-cylinder engine that develops 11MW, the ship has a top speed of 20 knots.
