GENERAL VESSEL INFORMATION:

Two series of the UCC 14 ships were built by the Mathias-Thesen-Werft Wismar, (East) Germany

The ships of the "WATER-series" (1,034 TEU / 60 Reefer / Cranes: 1x40t, 2x25t) were delivered to Joon Shipping BV, Netherlands (which went bankrupt in 1991).

The ships of the "NORD-series" (1,158 TEU / 125 Reefer / Cranes: 2x40t +3rd crane on aft deck) were delivered to the Reederei NORD (K. E. Oldendorff), Cyprus / Germany.

One vessel of the series - TALLAHASSEE (Yard No 182) - was initially delivered to another German owner.

The type name UCC 14 reflected the ship's deadweight capacity of approximately 14,000 dwt.

Yard: VEB Mathias-Thesen-Werft Wismar, East Germany (GDR)

2005:

In collision with MSC KATIE (77/35599) off Port Louis, Mauritius 21/4/2005. MSC KATIE sustained two large cracks, one below the waterline, the engine-room and No. 7 hold were flooded and she was grounded on a reef to avoid sinking. Refloated 7/5/2005 and berthed in order to discharge her containers. Damage to NORDSUN was confined to a crushed bow and she was anchored in Port Louis roads and later placed under arrest.

2006:

In co-operation with the very good partners Hansen & Lange I/S, Fabricius Marine A/S has again purchased a container feeder ship. The new ship in the fleet is M/V NORDSUN which was taken over in the end of April. The ship is a container ship with an intake of 1666 TEUs and a deadweight capacity of 14.245 tons. She was built in 1991 and will after take over be transferred to the Antigua and Barbuda flag. The ship will be renamed M/V CAROLINE M/V CAROLINE will continue in a time charter under the chartername DELMAS ANGOLA to CMA CGM until ultimo 2007

Erria sheds boxship brace

21 May 2010 14:06 GMT UPDATED 27 June 2012 8:45 GMT

By **Andy Pierce**

Danish owner Erria has sold two laid-up containerships as it continues to cut back its activity in the sector.

It has offloaded the 1,100-teu pair **Karoline** (ex-Vento Di Grecale) and **Filippa** (both built 1991), it tells investors Friday.

Erria does not reveal a price for the ships, which have been stacked in Malmo for some time.

2012:

SAADET C (Vento Di Grecale -10, Delmas Angola -08, Nordsun -06, Chile Star II -99, Kent Scout -98, CGM la Bourdonnais -97, Nordun -97, Lanka Abhaya -97, Nordsun -92), 11,998/91 – container ship. By Group NSCVO Inc. (Canbaz Shipping Group), Panama, to Arti Ship Breaking, India, and arrived Alang 28/9/2012. Beached 3/10/2012.

Last 'UCC 14' type sold for demolition

The recent sale for demolition of the Indian-controlled cargo vessel **SAI SUNRISE** marks the end of a once successful series of containerships.

Before trading as a breakbulk vessel, the **SAI SUNRISE** used to be a 996 teu cellular containership of the 'UCC 14' type, a popular design of charter market container vessels developed by East Germany's Mathias Thesen Werft in the late 1980s.

In total, fourteen 'UCC 14'-type container vessels were built by the German yard from 1987 to 1991. Most of them were broken up or lost in the past years, the **SAI SUNRISE** being the last survivor.

Typically rated at 996 to 1,158 teu, depending on versions, and fitted with three cranes, the 'UCC 14s' were popular charter market workhorses in the 1990s, especially on North-South and regional routes.

They were often competing against another trendy design of that era, the Stocznia Szczecinska-developed 'B-183' type, which existed in two versions, the original one, rated at 1,012 teu and fitted with two cranes, and a lengthened one, rated at 1,162 teu and fitted with three cranes.

The **SAI SUNRISE** was originally built as the **WATERGIDS** for Dutch owner and liner operator Joon Shipping, which operated several ships of this type on transatlantic services. After the company went bankrupt in 1991, the **WATERGIDS** and her sister vessels in the Joon fleet were

sold to other liner interests and to non-operating owners for charter market deployment.

The **WATERGIDS** featured a deadweight of 14,140 tons, a Loa of 156.70 metres and a beam of 22.86 metres. She was equipped with three cranes of up to 40 tons capacities.

Like several 'UCC 14s', she was de-celled in the second part of her career and ultimately used on non-liner trade routes, catering for bulk and breakbulk cargoes.
