GENERAL VESSEL INFORMATION:

1993: **Egon Oldendorff strengthened its cooperation with CSL by acquiring their 62,732 tdw self-unloader CSL INNOVATOR which currently trades in the joint pool as the CHRISTOFFER OLDENDORFF.** The vessel was built in 1982 at Govan in Scotland and was converted at the Brazilian Verolme yard in 1988. She is expected to last another ten to fifteen years, not least because of her high lightweight of 16,000 tonnes.

Since 1992, OLDENDORFF operates its belt selfunloaders successfully in a commercial Pool with CSL International in Beverly near Boston / USA. Already in the Pool were the Panamax selfunloaders "BERNHARD OLDENDORFF", "CHRISTOFFER OLDENDORFF", "YEOMAN BROOK" and Handymax 50,000 t Selfunloader "ALICE OLDENDORFF", built in China in 2000. The Pool also uses CSL's "CSL ATLAS" and several other handysize selfunloaders.
