GENERAL VESSEL INFORMATION:**2002:**

Hamburg-based Wehr has five of the ships arriving from Kvaerner Warnow this year and confirms it has placed four with an operator on routes between West Coast South America to Asia and the US.

Broking sources say the company was under bank pressure to fix the ships. Finance house Munchmeyer Petersen Capital (MPC) acquired two of the 2,500-teu series from Wehr late last year for five-year charters to Hamburg Sud.

2017:

Reederei Oskar Wehr has taken “a strategic decision” to sell its container shipping fleet in order to focus on its dry cargo interests.

That has been resolved with further sales of what had comprised eight 2,524-teu vessels under Wehr’s management.

Sale-and-purchase brokers report that three 2,526-teu vessels, the Wehr Warnow, Wehr Trave and Wehr Bille (all built 2002), have been sold to Chinese buyer SITC for around \$3.9m per vessel.

Originally, Wehr managed eight vessels in the 2,500-teu series.

SITC bags Wehr 2,500 teu tonnage

Chinese container carrier SITC has bought three 2,500 teu container vessels from Hamburg-based Oskar Wehr GmbH as the Asian operator continues to take advantage of the current rock-bottom prices in the second-hand market to expand its fleet.

The 2,526 teu WEHR WARNOW and WEHR TRAVE, as well as the slightly different WEHR BILLE (2,474 teu), are said to have been bought for an ‘en bloc’ price of \$11.7 M.

The WEHR WARNOW and WEHR TRAVE were both built in 2002 by the Kvaerner-Warnow yard in Warnemunde (Germany). They are part of the ‘CV 2500’ series, of which 20 units were built from 1997 to 2006. They present a deadweight of 33,795 tons, a Loa of 208.36 m and a beam of 29.90 m. They are equipped with three cranes of 45 tons and are fitted with 481 reefer plugs. The WEHR BILLE was built by Germany’s Volkswerft yard in Stralsund in 2002. The vessel is part of the ‘VW 2500’ series, of which 58 ships were built from 1997 to 2011. The vessel presents a deadweight of 33,700 tons, a Loa of 207.40 m and a beam of 29.80 m. She is equipped with three cranes of 45 tons and is fitted with 400 reefer plugs.

The purchase of these ships comes as German owner Oskar Wehr recently announced that it was selling its entire fleet of containerships, putting an end to eight years of pain through the hardest ever slump in container shipping.
