**GENERAL VESSEL INFORMATION:**

On Dec 12 2003 the chemical tanker M/T 'Ekfors' was delivered to Ektank AB in Gothenburg. The vessel is built at the Jiangnan Shipyard in Shanghai, China. She will sail with Swedish flag and homeport DONSÖ with a crewmix of Swedish and Filipino crew all from OSM. The vessel will be operated by Ektank's own chartering/operation department, mainly in North Sea and Baltic trade.

A sister vessel M/T 'Eken' will be delivered in April 2004, also with Crewmanagement by OSM, but with NIS-flag. That complete a serie of four sister vessels built at the same shipyard
