Geest North Sea Line, the Dutch intermodal transport specialist, is to launch a major new container service linking Teesport (Middlesbrough) in the UK with Rotterdam in the Netherlands. The first sailing from the Tees will be on 13 September and sailings to Rotterdam will be every Tuesday, Friday and Sunday. Return sailings from Rotterdam will be every Monday, Thursday and Saturday.

Geest has chartered a brand-new vessel to operate this new schedule, **GEEST EXTERNO** which, at 340TEU, is of a similar size to those ships used on the Hull and Tilbury services. However, she has an above average deadweight tonnage to enable her to carry the heavier cargoes, notably dry and liquid bulk chemicals, that tend to move on this route.
