1985-built 3,797-gt 97-m container M/V **ELINE**, (ex M/V HMS Navigator, **HMS GOODWILL**, Commodore Goodwill, Akak Cedar) underway from Arhus to Reykjavik with 10 crew aboard, took on water in severe weather approximately 12 miles northeast of Grena, Denark at 0700LT on July 8. Rescue stations Grena and Anholt responded deploying two helicopters to the scene. 7 of the 10 crew were taken aboard the tanker M/V Stena Natalita via helicopter. The water leakage was patched and controlled, at which time M/V Eline was then towed to Grena by a tug from Arhus. (Mon. July 9 2007)
