EX-NAMES:

KALANA	1996-	Estonian Shipping Co. Ltd., Estonia
--------	-------	-------------------------------------

GENERAL VESSEL INFORMATION:

ICS Danube Logistics SRL has launched last month a bi-monthly container service connecting Istanbul to Moldova, offering the first ever seagoing container connection with this semi-landlocked country. The service connects at Istanbul with main lines, in particular MSC, which takes slots. It is ensured with the 266 teu **KALANA**, chartered from the Estonian Shipping company, which is controlled by Norwegian owner Tschudi & Eitzen. The KALANA is a low draft ice strengthened ship (1A), needed in Danube waters at this period of the year. (Source: Alphaliner 06/2012)
