GENERAL VESSEL INFORMATION:

Brointermed Lines started a new door-to-door container service at the end of December. In Northern Europe the vessels call at Rotterdam, Antwerp, Bremen and Harwich. After these ports the ships sail to Algiers (11 days) and Oran (13 days) both in Algeria. On sub-inducement also other ports are called. For this service, with a frequency of every 10 days, container vessels of 450 TEU are employed.

Besides this service Brointermed Lines also offers a multipurpose service (containers, conventional and project cargo) between Northern Europe and Libya. The sailing frequency of this service has been increased to every 10 days.

(LEPTIS STAR seems to be employed on this services...)
