MARE NOSTRUM	2009-	Fratelli d'Amico Armatori S.p.A., Italy

GENERAL VESSEL INFORMATION:

Mitsui Engineering & Shipbuilding Co., Ltd. completed and delivered a 110,000 dwt type double hull crude oil tanker M.T. **MARE NOSTRUM** (MES Hull No. 1678) at its Chiba Works to Fratelli d'Amico Armatori S.p.A., Italy on February 26, 2009. This is the 12th Aframax Tanker of 42 meter beam with the largest deadweight and the largest cargo tank capacity.

February 26 , 2009

www.mes.co.jp/english/press/2009/20090226.html

Japanese shipyard Mitsui Engineering & Shipbuilding has delivered the 110,000 dwt aframax tanker **MARE NOSTRUM** to Rome-based Fratelli d'Amico. It is the final ship in a series of seven. The vessels have the RINA notation COVENT, which covers sufficient ventilation in the case of oil leakage in the ballast tank. With three possible cargo piping segregations and three separate pumps, the **MARE NOSTRUM** can handle three different types of oil simultaneously.
