Ship manager Date of record Source
NORDEN A/S DAMPSKIBSSELSKABET since 31-12-2009

EX-NAMES:

NORD DELPHINUS	2010-	Norden Shg. Singapore Pte. Ltd., Singapore

GENERAL VESSEL INFORMATION:

On October 30 Norden, Denmark, held a naming ceremony at the Shanghai Shipyard in China for the first vessel in a pool of 16 post-Panamax bulk carriers. '**NORD DELPHINUS**' is the first in a series of four **post-Panamax bulk carriers** built for Norden by Shanghai Shipyard and China State Shipbuilding Corp (CSSC). They will be joined by four other vessels from other yards. The eight vessels will be pooled with additional eight vessels from the Interorient Navigation Company.

The new vessel type is expected to fill the gap between Panamax and Capesize due to its loading capacity and draught efficiency. Post-Panamax vessels can load between 85,000DWT and 120,000DWT, which is more than traditional Panamax vessels and will be able to pass through the Panama Canal following its planned expansion in 2014.
