**GENERAL VESSEL INFORMATION:**

The keel laying ceremony of the fifth container vessel, built for FESCO, took place on March, 10th at the Jingling shipyard in China

The vessel is to be named **FESCO ANADYR**. The first steel cutting of the new vessel was started on November, 30th, 2006.

According to the Jingling shipyard's schedule, the new vessel will be delivered to FESCO Transport Group on November, 30th, 2007 - a month earlier than is stipulated in the contract.

The newbuild vessel of 13760 tons deadweight is designed to carry 1080 TEU's. 220 reefer containers can be loaded in order to carry refrigerated cargo. The ship will have two electro-hydraulic cranes, carrying 40 tons each. Service speed laden is expected to be about 19 knots.
