## GENERAL VESSEL INFORMATION:

In January 1997, Oshima Shipyard in Japan delivered the 48,000-dwt Pacific Scorpio to Hong Kong Ming Wah Shipping Company. Last in a series of six handysize bulk carriers, Scorpio marked a double milestone for the bulk shipping industry: completion of the first significant order by a major shipowner for double-skin bulk carriers, and also for the first SafeHull™-built bulk carriers.
