SALES, TRANSFERS & RENAMINGS:

GENERAL VESSEL INFORMATION:

another bulker with same name was scrapped as FEDRA in 1996...
Marine News November 1996, p.681

Vessel has been banned from all European ports & all countries that are members of the Paris Memorandum of Understanding on Port State Control. Vessel was detained at Kotka 24/10/1997 for safety violations and released 4 days later on the condition it would sail in ballast directly to Constanta for repairs. As the ship's classification certificates from RINA were to expire 30/11/1997 survey work was to be done at the same time. A ship repair facility recently informed Finland that the ship never arrived and RINA has cancelled its classification. On 26/11/1997 the vessel radioed the Port of Barcelona stating the ship would arrive in three hours. The port informed the ship it would not be able to enter and the vessel sailed on.
