GENERAL VESSEL INFORMATION:

GERDA (German-registry containership) ran aground off Kotka, Finland, in heavy fog while sailing with containers from Helsinki, Finland. The ship was refloated & towed to Kotka. The ship's bow was holed over 13 feet. Four empty containers were lost overboard

Cargo Letter - 8 April 1998

The Danish shipping line UniFeeder Container Services of Aarhus is to operate a dedicated feeder service for P&O Nedlloyd between Rotterdam, Russia and Finland. Under the new agreement, two of UniFeeder's ships are to be repainted in the P&O Nedlloyd livery. Despite this, the service will continue to be operated by UniFeeder.

The Danish line has been shipping Russian cargoes on behalf of P&O Nedlloyd for some time. Feeder services to and from Saint Petersburg's Northern Wharf began in April 1998. The nearby Finnish port of Kotka was previously served jointly by the two companies. With volumes on the route growing, P&O Nedlloyd asked UniFeeder for more capacity and a dedicated service. The Danish firm agreed and has renamed its 508 TEU sister ships GERDA and VERA the **P&O NEDLLOYD RUSSIA** and **P&O NEDLLOYD FINLAND** respectively.

Walther Möller Container Fixture Report June 2007

Estonia-based Tschudi Lines Baltic Sea AS, a subsidiary of Norwegian transport group Tschudi Logistics Holding AS, is to almost double the capacity of its North Europe-Baltic 'Finbest' service with three 508 teu ships replacing three 266 teu ships. The three newcomers are the freshly chartered GERDA, RAGNA and DORNBUSCH. While the GERDA joins Tschudi Lines just after her redelivery from Unifeeder, the RAGNA and DORNBUSCH are reactivated after having spent almost 12 months at Hamburg in lay up (they were laid up on 20 Dec and 10 Dec 2008 respectively).

The 'Finbest' service connects the UK (Immingham) and Benelux (Rotterdam) to Helsinki, Muuga, Klaipeda and Esbjerg.
