LOA: 192.85  
Bmd: 27.80  
Draft: 11.20  
Engine: 1x oil B&W 7S60MC-C  
Power: 15785 kW  
Speed: 18.0 kn  
Cranes: 2x320 t + 1x100 t + 1x45 t

## OWNER & FLAG HISTORY:

RICKMERS SEOUL since 01/05/2003  
SHANGHAI SHIPYARD 1102 14-01-2002 LRF  
Flag Date of record Source  
Marshall Islands since 01/10/2003  
Registered owner Date of record Source  
WILMORE SHIPPING CO LTD since 10/10/2003  
Ship manager Date of record Source  
RICKMERS REEDEREI GMBH & CIE since 01/04/2003

## EX-NAMES:

RICKMERS SEOUL	2003-	Wilmore Shipping Co. Ltd., Marshall Islands

## GENERAL VESSEL INFORMATION:

2003:

Hamburg based Rickmers Linie is taking delivery of a series of nine new Superflex Heavy MPC class vessels. The latest was christened **RICKMERS SEOUL** in South Korea on April 22, less than a month following the delivery of a sister ship, RICKMERS JAKARTA. Seven more of the same type are already in service. The ships, which can carry containers, breakbulk, and heavy lift cargo, are deployed in Rickmers' fortnightly Round-The-World Pearl String Service, which calls at a number of U.S. ports. Like her eight sister vessels, RICKMERS SEOUL is equipped with flexible tweendecks, dehumidifying devices in all holds, and heavy-lift capacity of up to 640 tons.

### Zeaborn bags Rickmers 'Superflex MPC' multipurpose - heavylift quintet

Bremen-based multipurpose and project operator Zeaborn has purchased five 30,000 dwt 'Superflex MPC' multi-purpose vessels from the Hamburg-based Rickmers Group for a reported en-bloc price of \$30 M.

The five ships included in the transaction are the RICKMERS DALIAN, RICKMERS JAKARTA, RICKMERS NEW ORLEANS, RICKMERS SEOUL and RICKMERS SINGAPORE, all built between 2003 & 2004 in two different Chinese yards, Xiamen and Shanghai Shipyards.

The purchase of these ships adds to the earlier acquisition by Zeaborn of a sister vessel, the RICKMERS HAMBURG, bought when Zeaborn took control of Hamburg-based Rickmers Linie in April 2017.

The RICKMERS DALIAN and her sisters feature a deadweight of 30,095 tons, a Loa of 192.90 m and a beam of 27.00 m. They are highly versatile multi-purpose cargo vessels fitted with a strong gear that features two cranes of 320 tons (combinable to 640 tons) as well as one crane of 100 tons and one of 50 tons.

The ships are also able to carry up to 1,888 teu and they were originally part of a nine-vessel series delivered to Rickmers Linie in 2003-2004.

Rickmers remains for the time being owner of the RICKMERS ANTWERP, RICKMERS SHANGHAI and RICKMERS TOKYO which are time chartered to Zeaborn and operated alongside their sisters, on Rickmers Linie 'Pearl String' Eastbound Round-the-World service, an operation which is now part of the Zeaborn Group.

The Zeaborn Group has been expanding quickly since it was set up in 2013, a milestone development being its take-over of Rickmers Linie and affiliate NPC Projects (ex Nordana Projects) in April 2017. The companies currently under the Zeaborn umbrella operate 200 staff and about 50 multi-purpose vessels ranging from 7,500 to 30,000 dwt, with lifting capacities up to 700 tons.

Rickmers-Linie buyer takes ownership of five multi-purpose vessels operating the line's Pearl String service

GERMAN multi-purpose vessel owner Zeaborn has confirmed that it has taken five heavylift cargo vessels off the hands of Rickmers Holdings.

Zeaborn, which acquired insolvent Hamburg shipping giant Rickmers Group multi-purpose vessel division Rickmers-Linie earlier this year, said that it had signed contracts for five 30,000 dwt superflex heavylift units that were sister ships of the previously purchased Rickmers Hamburg. The respective parties have agreed not to disclose the value of contracts for each vessel. The ships are employed as part of the Rickmers Line liner service.

The five vessels, Rickmers Singapore, Rickmers Jakarta, Rickmers New Orleans, Rickmers Seoul and Rickmers Dalian — equipped with four cranes allowing for a combined lifting capacity of 640 tonnes — will be renamed to incorporate the Zeaborn title by the end of September.
