GENERAL VESSEL INFORMATION:

2004: Dutch owner JR Shipping has bought two ice-classed 1,050-teu containerships, SEA BALTICA (built 1996) and SEA NORDICA (built 1997), from Finnish ro-ro specialist Bore Group.

The vessels, which were already fixed to Maersk Sealand, have been extended for a further three years from the expiry of their charters next May at a reported \$15,400 per day. They will remain operating in the Baltic area, where they have been used since delivery by Rotterdam shipyard Yssel Vliet Combinatie (YVC).

JR Shipping will rename the Dutch flag vessels EVOLUTION and EVIDENCE although they will keep their respective charter names. The acquisition returns the vessels to Dutch ownership three years after they were sold to Bore.

Bore acquired the two ships from Dutch company Rederij Master Lemmer in October 2001, when the Verschoor family owners sold the firm and its fleet of three ships to Bore Shipowners - a subsidiary of Finland's Oy Rettig group.
