GENERAL VESSEL INFORMATION:

Also in June, the 633'(190m) Greek bulk carrier **SEA TRIDENT** made a three-week dockside stop in the Portland Shipyard for the replacement of most of the frames in the #1 and #5 holds. The deterioration, caused by corrosion, was detected by an ABS inspector after the ship had discharged cargo in Los Angeles. The ship's owners, Marine Managers Ltd of Piraeus, Greece, selected Cascade General to make the necessary repairs, and the ship detoured north to the Columbia River.
