GENERAL VESSEL INFORMATION:

The sister vessels SWAN STREAM, **SWAN OCEAN** & SWAN LAGOON were ordered by the Belgian Government back in 1978 and delivered by Boelwerf in 1979/80. In 1990 the vessels were bought by the Swedish company Rederi AB Swan from which Swan reefer ASA originated. During the years 1990-93 the vessels were bare-boat chartered to Turbana trading with bananas from South America to US East Coast. In the following years they were operated by Cool Carriers participating first in the Leonia Pool and then the Arctic Pool until late autumn 2001 when the vessels entered the NYK-Star Pool. Star Reefers decided to sell the vessels for investments in more modern fleet.
