GENERAL VESSEL INFORMATION:

2008: The fixture of **the 3,586TEU newbuilding, NORDWINTER, due to be delivered to German owner Reederei Nord Klaus E Oldendorff** next month, is eagerly awaited in the market and this is seen as an indication of the market's future direction.

A vessel of this size has not been available on the spot market for some time and, as its recently-reported charter to CMA CGM for five years at USD30,000 per day fell through, it would appear that its owner may have to accept a lower daily rate and/or a shorter charter period.
