**GENERAL VESSEL INFORMATION:**

2010:

**TradeWinds**

Norwegian interests are said to have bought the **1,835-teu ARIES** (built 2001) and URANUS (built 1999) for \$14.5m each from Alpha Ship of Bremen

(www.tradewindsnews.com- May 27th, 2010)

2014:

**TradeWinds**

Ahrenkiel Steamship has added two containerships to its portfolio and a partnership with US investors could soon lead to more. **The 1,876-teu VEGA and ARIES** (both built 2001) have been handed over from Alpha Ship – the Bremen-based manager of a dwindling fleet of KG (limited partnership) containerships – which was unable or unwilling to put more equity into them, say German sources. **The deal means that Alpha Ship has lost six Astro L-design boxships** this year.

(www.tradewindsnews.com - September 26th, 2014)

Two containerships in the fleet of German Alpha Ship have been sold to a compatriot owner. **The 1,835-teu ARIES and VEGA** (both built 2001) are said to be worth in excess of \$7m each.
