GENERAL VESSEL INFORMATION:

2006: Jumbo Shipping of the Netherlands is increasing its fleet of new 1,800-tonne-lift-capacity vessels to four with another order at Damen. Total spending on the series is estimated to be at least EUR 200m (\$256m). The heavylift operator has exercised an option

at Damen's yard in Galatz, Romania, for the J-class newbuilding. Delivery is set for the second quarter of 2008. **Jumbo kicked off the series two years ago (2004) when it introduced the JUMBO JAVELIN and FAIRPARTNER.** Their lifting capacity has since been upgraded from 1,600 tonnes to 1,800 tonnes.
