They were **purchased by Lily in August 2005 from Greek owners** The LILY NOBLE and LILY ROYAL were **built in 1981-83 in Brazil under license of the UK Shipyard 'Austin & Pickersgill' (A&P)**, a prolific shipbuilder of cargo vessels until its closure in the 1980s. They are **based on the 'SD 14', a standard cargo vessel designed** in the mid-1960s by A&P. The LILY NOBLE and LILY ROYAL are among the latest SD14 built, and unlike the vast majority of the other SD14s, they were **fitted with cranes instead of cargo derricks**.
