EX-NAMES:

RICKMERS SINGAPORE	2003-17	Careway Shipping Co. Ltd., Marshall Islands
RICKMERS SINGAPORE	2017-	Zea Singapore GmbH & Co KG, Marshall Islands

GENERAL VESSEL INFORMATION:

2003:

RICKMERS SINGAPORE, one of nine new Superflex Heavy Multi-Purpose Container (MPC) vessels being built in China for Rickmers-Linie, Hamburg, was christened on September 5, 2003 in its namesake city Singapore.

RICKMERS SINGAPORE is employed on Rickmers' Round-The-World Pearl String Service having been delivered to the company in March 2003.

RICKMERS SINGAPORE and sisterships are currently the most modern MPC vessels on the market. With their identical layouts the vessels boast adjustable tweendecks, a heavy-lift capacity of up to 640 tons and dehumidifying devices in all holds.

All-encompassing, Rickmers-Linie ordered nine vessels, of which the seventh RICKMERS NEW ORLEANS was just delivered in July 2003. The new fleet will be complete when the deliveries of RICKMERS JAKARTA and RICKMERS GENOA occur in November 2003 and early 2004, respectively.

Zeaborn bags Rickmers 'Superflex MPC' multipurpose - heavylift quintet

Bremen-based multipurpose and project operator Zeaborn has purchased five 30,000 dwt 'Superflex MPC' multi-purpose vessels from the Hamburg-based Rickmers Group for a reported en-bloc price of \$ 30 M.

The five ships included in the transaction are the RICKMERS DALIAN, RICKMERS JAKARTA, RICKMERS NEW ORLEANS, RICKMERS SEOUL and RICKMERS SINGAPORE, all built between 2003 & 2004 in two different Chinese yards, Xiamen and Shanghai Shipyards.

The purchase of these ships adds to the earlier acquisition by Zeaborn of a sister vessel, the RICKMERS HAMBURG, bought when Zeaborn took control of Hamburg-based Rickmers Linie in April 2017.

The RICKMERS DALIAN and her sisters feature a deadweight of 30,095 tons, a Loa of 192.90 m and a beam of 27.00 m. They are highly versatile multi-purpose cargo vessels fitted with a strong gear that features two cranes of 320 tons (combinable to 640 tons) as well as one crane of 100 tons and one of 50 tons.

The ships are also able to carry up to 1,888 teu and they were originally part of a nine-vessel series delivered to Rickmers Linie in 2003-2004.

Rickmers remains for the time being owner of the RICKMERS ANTWERP, RICKMERS SHANGHAI and RICKMERS TOKYO which are time chartered to Zeaborn and operated alongside their sisters, on Rickmers Linie 'Pearl String' Eastbound Round-the-World service, an operation which is now part of the Zeaborn Group.

The Zeaborn Group has been expanding quickly since it was set up in 2013, a milestone development being its take-over of Rickmers Linie and affiliate NPC Projects (ex Nordana Projects) in April 2017. The companies currently under the Zeaborn umbrella operate 200 staff and about 50 multi-purpose vessels ranging from 7,500 to 30,000 dwt, with lifting capacities up to 700 tons.

Rickmers-Linie buyer takes ownership of five multi-purpose vessels operating the line's Pearl String service

GERMAN multi-purpose vessel owner Zeaborn has confirmed that it has taken five heavylift cargo vessels off the hands of Rickmers Holdings.

Zeaborn, which acquired insolvent Hamburg shipping giant Rickmers Group multi-purpose vessel division Rickmers-Linie earlier this year, said that it had signed contracts for five 30,000 dwt superflex heavylift units that were sister ships of the previously purchased Rickmers Hamburg. The respective parties have agreed not to disclose the value of contracts for each vessel. The ships are employed as part of the Rickmers Line liner service.

The five vessels, Rickmers Singapore, Rickmers Jakarta, Rickmers New Orleans, Rickmers Seoul and Rickmers Dalian — equipped with four cranes allowing for a combined lifting capacity of 640 tonnes — will be renamed to incorporate the Zeaborn title by the end of September.
