2022:

Team Tankers sells three last ships

Hans Thaulow · February 24, 2022

659 1 minute read

Broking sources tell *Splash* that the once mighty chemical player Team Tankers International has offloaded its last three ships, the 24,000 dwt *Team Falcon*, *Team Hawk* and *Team Osprey*. No prices nor taker is attached to the sale of the Dae Sun built ships, but VesselsValue indicates that the ships might have fetched around \$10m each.

Team Tankers has sold some 20 ships over the last 12 months. The US-based company has a long history. It was first incorporated in Norway almost 60 years ago, while its roots are much older. The outfit has changed names several times but has stayed loyal to its core business. In 2020, Team Tankers delisted from the Oslo Stock Exchange after five years. Before that, it was best known publicly as Eitzen Chemical.

Team Tankers calling it a day after selling last three ships

US-based owner will return final sales cash to shareholders after huge fleet sell-off over the last four years

23 February 2022 23:06 GMT *UPDATED* 23 February 2022 23:06 GMT

By [Gary Dixon](#) in [London](#)

US-based Team Tankers International is completing its exit from shipping with the sale of its last three tankers.

The 25,400-dwt Team Hawk (built 2008), Team Osprey and Team Falcon (both built 2009) went for \$9m each, or \$27m in total, in an en-bloc deal to unknown European interests, European brokers said.

VesselsValue assesses the trio as worth \$30m.

Darrell Crate's MLEP emerges as buyer of last Team Tankers ships

Easterly Asset Management spin-off builds fleet to seven ships as it bets on tonnage shortage

21 March 2022 15:02 GMT *UPDATED* 22 March 2022 14:18 GMT

By **Gary Dixon**  in **London**

Easterly Asset Management's Maritime Logistics Equity Partners (MLEP) has expanded its chemical tanker fleet again as it capitalises on what it believes is a shortage of vessels in the sector.

The US company was formed last year to invest in "critical" maritime shipping assets.

MLEP told TradeWinds that it has bought the 25,400-dwt Team Hawk (built 2008), Team Osprey and Team Falcon (both built 2009).
