CONSHIP SINGAPORE	1990-90	Garnata Shipping N.V., Netherlands Antilles
WATERKONING	1990-91	Garnata Shipping N.V., Netherlands Antilles
NEDLLOYD MAAS	1991-97	Cosby Shipping N.V., Netherlands Antilles
SOFIA	1997-11	Sofia Shipping Ltd., Malta
SAI ETERNITY	2011-13	Sunrise Maritime Pte Ltd., Panama

GENERAL VESSEL INFORMATION:

Two series of the UCC 14 ships were built by the Mathias-Thesen-Werft Wismar, (East) Germany

The ships of the "WATER-series" (1,034 TEU / 60 Reefer / Cranes: 1x40t, 2x25t) were delivered to Joon Shipping BV, Netherlands (which went bankrupt in 1991).

The ships of the "NORD-series" (1,158 TEU / 125 Reefer / Cranes: 2x40t +3rd crane on aft deck) were delivered to the Reederei NORD (K. E. Oldendorff), Cyprus / Germany.

One vessel of the series - TALLHASSEE (Yard No 182) - was initially delivered to another German owner.

The type name UCC 14 reflected the ship's deadweight capacity of approximately 14,000 dwt.

Yard: VEB Mathias-Thesen-Werft Wismar, East Germany (GDR)

Last 'UCC 14' type sold for demolition

The recent sale for demolition of the Indian-controlled cargo vessel SAI SUNRISE marks the end of a once successful series of containerhips.

Before trading as a breakbulk vessel, the SAI SUNRISE used to be a 996 teu cellular containership of the 'UCC 14' type, a popular design of charter market container vessels developed by East Germany's Mathias Thesen Werft in the late 1980s.

In total, fourteen 'UCC 14'-type container vessels were built by the German yard from 1987 to 1991. Most of them were broken up or lost in the past years, the SAI SUNRISE being the last survivor.

Typically rated at 996 to 1,158 teu, depending on versions, and fitted with three cranes, the 'UCC 14s' were popular charter market workhorses in the 1990s, especially on North-South and regional routes.

They were often competing against another trendy design of that era, the Stocznia Szczecinska-developed 'B-183' type, which existed in two versions, the original one, rated at 1,012 teu and fitted with two cranes, and a lengthened one, rated at 1,162 teu and fitted with three cranes.

The SAI SUNRISE was originally built as the WATERGIDS for Dutch owner and liner operator Joon Shipping, which operated several ships of this type on transatlantic services. After the company went bankrupt in 1991, the WATERGIDS and her sister vessels in the Joon fleet were

sold to other liner interests and to non-operating owners for charter market deployment.

The WATERGIDS featured a deadweight of 14,140 tons, a Loa of 156.70 metres and a beam of 22.86 metres. She was equipped with three cranes of up to 40 tons capacities.

Like several 'UCC 14s', she was de-celled in the second part of her career and ultimately used on non-liner trade routes, catering for bulk and breakbulk cargoes.
